# PUTNAM COUNTY

We want to thank you for taking a few moments to review all the resources that Putnam County has to offer. We are a progressive community with a very proud past and high expectations for the future. The community is instituting a plan of continued growth for the community ranging from new job development, existing business retention and community development projects including downtown revitalization which will make Putnam County a better place to live for our residents and those persons looking to become new members of the community.

If you are new to the Putnam County area you will find a peaceful hometown life where the sense of security encompasses you. The lifestyle and pace is comfortable and it's the people who make it that way. We have many residents in the community who share great personal and community pride in our county. Residents want to retain the best of the past and address the needs of the future. Unionville is graced with many attractive older homes, which have been refurbished to reflect the city's history, as well as numerous new homes. Community organizations work on projects to enhance the quality of life for all residents. Without these outstanding volunteers, our community would not be what it is today.

The rolling hills of Putnam County that first attracted residents to our area still serve as the base of our agricultural economy. Our citizens share great pride in our farms and the beauty of our landscape and natural woodlands. Many people come to the area for the bountiful hunting opportunities. Unionville is the largest town in the county and also the county seat. The Putnam County Courthouse located in the center of the Unionville town square and the majority of buildings on the square are listed on the National Historic Register. Other communities in Putnam County include Lake Thunderhead, Lemons, Powersville, Livonia, Lucerne, Worthington, Omaha, Hartford, Martinstown and Graysville.

As you can tell, we are very proud of Putnam County and hope after you have a chance to get acquainted with our community you will understand why.
